

Sierra Nevada Mid Zone, Sierra Nevada Ski Village, 18196, GRX, Andalucia

A charming, rustic-style hotel offering quality facilities right by the piste.

This is the only hotel that can boast a truly ski-in / ski-out position in Sierra Nevada. The piste that runs by it is a blue graded slope but there is also a flat access track leading to a gentler green track. Both options lead down to the lower zone and the main gondolas for access to the upper slopes. The return run to the hotel is all blue and suitable only for intermediate skiers. For first timers or skiers with limited experience, the hotel operates a shuttle bus service to and from the central squares in the lower zone for all clients (times should be consulted at reception upon arrival). With a total of 31 rooms of differing categories and capacities, this lovely hotel offers plenty of scope for larger parties travelling together. It also boasts plenty of public areas with bars, restaurants and a games room. There is a Spa area (at extra cost) which offers a jacuzzi, sauna and massage service. WIFI is available in the public areas.
